Automotive Chemicals - Car Care - Cleaning

Version: **CC20/002**

Valvoline™ EGR & Turbo Cleaner

EGR & Turbo Cleaner is a blend of selected detergents, carefully formulated to maximize the cleaning of EGR (Exhaust Gas Recirculation) valves and turbo chargers.

Polluted turbo chargers decrease engine performance and shorten the life of the turbo. EGR & Turbo Cleaner is formulated to remove stubborn deposits quickly and safely, leaving no residue.

Applications

Suitable for use on EGR and Turbo chargers coated with gum, varnish, carbon or dirt. Sticking EGR valves increase harmful emissions. Use EGR & Turbo Cleaner to instantly remove these deposits to restore engine performance.

Easy to use:
Shake well before use. Clean the tumbling points and hinges of the EGR valves. Clean the turbo charger to address excess soot accumulation. All applications must be done at an outside temperature of 10-35ºC. The objects to be cleaned should be cooled down till less than 35ºC. The aerosol spray can contain a special valve enabling you to spray in any position.

For further information on how to use EGR & Turbo Cleaner, please scan the Quick Response code (QR code) to view our instructional video.

Features & Benefits

Cleans engine performance robbing deposits
EGR systems are designed to re-circulate exhaust gases, which are dirty and pollute the system. Turbo chargers are built to deliver more power to the engine. Whilst operating they generate much heat. Over time the turbo will get dirt deposits. Maintaining cleanliness is most important with these devices. EGR & Turbo Cleaner contains detergents designed specifically to remove deposits formed in EGR and turbo systems.

Powerful cleaners reduce harmful emissions
Stubborn deposits are removed quickly and safely. Cleans sticking EGR valves reducing harmful emissions, cleans polluted turbo chargers for optimum power performance and life of the turbo.

PRODUCT INFORMATION

Keeping the world moving since 1866™
Serving more than 100 countries around the globe, Valvoline is a leading marketer, distributor and producer of quality branded automotive and industrial products and services. Products include automotive lubricants; transmission fluids; gear oils; hydraulic lubricants; automotive chemicals; specialty products; greases, and cooling system products.

For more information on Valvoline products, programs and services please visit **www.valvolineeurope.com**

Typical properties
Typical property characteristics are based on current production. Whilst future production will conform to Valvoline specifications, variations in these characteristics may occur.

EGR & Turbo Cleaner	
Appearance	Clear liquid
Colour	Bright & clear
Odor	Typical
Application temperature	10-35ºC.
Specific Gravity @ 20°C.	0,802
Storage	Cool & dry
Flashpoint	<0ºC.

This information only applies to products manufactured in the following location(s): Europe

Health & Safety
This product is not likely to present any significant health or safety hazards when properly used in the recommended application and good standards of personal hygiene are maintained. Reference is made to the Safety Data Sheet (SDS) which is available on request via your local sales office or via the internet **http://msds.valvoline.com**

Protect the environment
Take used chemicals to an authorized collection point. Comply with local regulations. Do not discharge into drains, soil or water.

Storage
We recommend to store all packages under cover. In case outside storage is unavoidable, drums should be laid horizontally to avoid the possible ingress of water and damage to drum markings. Products should never be stored above 60°C, exposed to hot sun or freezing conditions.
